Black & Minority Ethnic (BME) Engagement Consultation

The objective of the project is to provide a two- way communication channel in which:

- BME community groups are actively engaged with Derbyshire County Council and providing feedback on the council's policy and service developments.
- DCC has a better understanding of the needs of BME communities and is responding to these in service delivery across Derbyshire.
- BME Community groups are actively engaged with Clinical Commissioning Groups delivering contracts and providing feedback about services.

There are three key elements to the project:

1. The project will facilitate the establishment and development of a BME consultative and advisory 'forum' representing BME communities across the county. This network will comprise two local forums.
2. The provision of one-to-one capacity building and mentoring for BME groups. The aim of this is to assist BME groups in becoming more aware of the county council's existing policies and services; raising issues and concerns; and gathering feedback from their communities.
3. Identify and empower new emerging BME communities to take part.
