### **Sport England – Community Asset Fund**

Sport England want to work with clubs and groups that really respond to the people in their local community. They're looking to work with different groups and organisations that ensure everyone has the opportunity to choose to take part in sport and physical activity. You can apply for between **£1,000-£150,000**.

Some projects might be:

- Looking to take over an underused sports facility or one under threat of closure (for example, you may need financial support to bring a building back into use)
- Wanting to expand or improve the experience you offer your customers (for example, upgrade a changing room or installing new toilets, heating system or social space)
- Responding to an emergency or unexpected event that's stopping people from being active (for example, fixing a roof that's been damaged by flooding)
- Intending to make improvements to a building or open space that's clearly needed in the local community.
