To reduce loneliness and Isolation, while at the same time increasing our knowledge of repair, recycling, and upcycling activities in Chesterfield and NE Derbyshire.

At this stage we are concentrating on simple repairs that our members can assist with and having informative and problem-solving conversations over teas or coffee.

We'll have family days, sales, board games, chess, scrabble, cards, books, murder mysteries and wet photography. The list will expand with new members and interests.

We hope to be able to make seed, bug and bird boxes, hedgehog hotels, bird feeders, and paint Potty Plant Pots (no,... not that kind). As well as repairing and sharpening kitchen and garden tools. Email us ideas...

Please come and get involved with your friends Alan, Anand, Barry, Karen, Stewart, Judy, Paul and Tony. All adults welcomed.
