

Home Library Service

If you find it difficult to visit a library or mobile library, or to carry your books home - perhaps due to:

- Disability or mobility issues
- Illness or a recent operation
- Caring responsibilities

...We can bring the library to you!

The Home Library Service offers free regular home visits on a temporary or long-term basis.

One of our Home Library Assistants will contact you to find out what types of books you like to read, and what format you prefer, for example large print or audio book. They will then visit your home every four weeks to deliver the resources and collect any that you have finished with.

To find out more about the service for yourself, or someone you think may benefit:
