

**Wednesday, 16 October 2024**

**Clay Cross Social Centre, Market Street, Clay Cross S45 9 JE**

This day-long, FREE event offers help to both community organisations and individuals to save energy, cut costs and help the planet.

#### Organisations

Community organisations can join local small businesses at a breakfast workshop from 8.30 to 10am. In just ninety minutes you'll be helped to put together a practical plan of action to cut your organisation's costs and impact on the environment. Demonstrating your commitment to environmental sustainability can help win funding, new employees or volunteers and support in the wider community.

The workshop also offers

- a workbook with more ideas and information
- up to eight hours support to put your plan in to practice
- breakfast refreshments

Book your place at <https://bit.ly/ClayX16Oct>

#### Individuals

From 10am to 4pm there will be a drop-in session (no booking needed) where local people can get advice on

- insulation
- home energy saving technology
- cheapest energy suppliers
- benefits help

and more thanks to the practical examples in the Marches Energy Agency mobile exhibition and help from National Energy Action, the country's leading fuel poverty charity.

The event is organised by Climate Action North East Derbyshire and is free to attend thanks to funding from Four Winds Energy Co-operative.
