

Supported Volunteering

At Rhubarb Farm, we understand that some individuals may have additional needs or require extra support to fully participate in volunteering activities.

We are able to offer supported volunteering options, where tailored assistance is provided to ensure that everyone can contribute meaningfully.

If you have a personal health budget, you can use it to access this support.

Independent and group volunteering

For those who feel confident enough, we also offer independent and group volunteering opportunities.

You can be given specific tasks to complete at your own pace, whether working alone or as part of a team. This flexibility allows you to develop skills and work in a way that suits your comfort level and preferred style.

Corporate Volunteering

We can also arrange corporate volunteering opportunities that can be used as team-building days, allowing businesses to support their community while promoting teamwork and collaboration amongst employees.

These customised days provide a unique chance for teams to work together in a meaningful way, contributing to local initiatives and enhancing their company's social responsibility efforts.
