Need support to:
Speak up for yourself?
Express your views?
Understand your situation?

Deaf-initely Women provide a free independent general advocacy service for deaf women living in Derby, Derbyshire, Nottingham and Nottinghamshire.

The aim of the service is to empower you to express your views, wishes and feelings about important situations, decisions and issues affecting your life.

Whether you're facing housing issues, need support with navigating benefits

appeals or tribunals, have problems with social care and health needs or feel you are being discriminated against, Advocates are here to support you when you feel you are not being fully involved in your situation or listened to.
