

Be part of work to improve end of life care and bereavement support across Derby and Derbyshire - Joined Up Care Derbyshire (JUCD) and the Integrated Care Board (ICB) have a programme of work to achieve the strategy and national ambitions for end-of-life care. They are wanting representation from community members for this work to ensure a variety of voices and opinions are heard, and are looking for people with an interest in end-of-life care to join the People Driving Change workstream. Anyone who has an interest in end-of-life care, may have experienced someone close receive care, or feel they have a good understanding of your community's needs is welcome to get involved. You can get involved by:

- Being part of a network that receives regular updates of the work being carried out.
- Attending meetings when it is relevant to you or your community.
- Putting forward comments and ideas for consideration
- A lay representative on the End-of-life programme board.
